

## **Workshop Description.-Two day Class Lickerty Split.**

This class will use Jelly rolls to create quick, easy quilts. We will be creating “strata” and using it with rulers and templates to give multi layered effects. The project to be completed over the two days uses Drunkards Path templates and is multi coloured and wall hanging size but is easily adapted to a bed size quilt. I will also talk about the number of ways you can use a “Jelly roll “to create your own quilts without using patterns and the rulers you have in your sewing room. This is a class aimed at the beginner and intermediate quilter and basic patchwork and quilting methods will be covered.
